

REMARKS

The foregoing amendment makes changes to the claims and abstract of the above-referenced application to place the application in proper form for examination.

Answer to Written Opinion

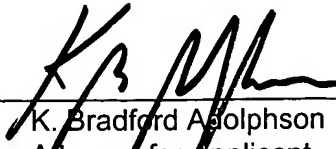

It has come to our attention that the International Preliminary Examination Authority (IPEA) in PCT/SE2005/000123 did not base its International Preliminary Report on Patentability on the claims submitted as an answer (copy attached as Exhibit A) to the written opinion. The answer was sent to and registered with the IPEA but apparently did not find its way into its docket. The IPEA thus established a report based on the originally filed claims rather than the claims submitted in the answer. It is respectfully requested that the U.S. Patent and Trademark Office take this into account during examination of the present application.

Conclusion

It is believed the application is now ready for examination and early favorable action is respectfully requested.

Respectfully submitted,
